Assignment 11

Before you start, create a file in a directory of your own.

A. Display the contents of `the file` with all occurrences of the word "the" changed to "this". (There is only one in each line.)

B. Display the contents of `the file` with all occurrences of the word "the" or "The" changed to "this".(There can be multiple "the" in a single line). "The word "this" should be capitalized every time, regardless of the capitalization of "the".

C. Display the contents of `the file` with all occurrences of "is" changed to "are" and all the lines containing "the" must be deleted in one sed command.

D. Create sed script that shows additional line "SED exercise" in the beginning and line "shell script" in the third line of the file . (plus a blank line before the start of the file)

E. Create sed script that deletes the last line of the file. Don't just replace the last line of the file with an empty line, get rid of the whole line in the file also.

F. Repeat part E but before making changes to the original file create a backup file for the original content
